

A photograph of a group of people interacting with a large, horizontal, multi-touch digital display. The display shows a 3D anatomical model of a human torso with internal organs highlighted in various colors. A woman in a colorful, patterned dress is leaning over the display, touching the screen. Three other people (two men and one woman) are standing behind her, looking at the display. The background is a dimly lit room with some posters on the wall.

1<sup>st</sup> European

# Users Group Meeting 2019

11–12 October, 2019  
Health House, Leuven (BE)

## About Table UGM 2019

The European Anatomage Table Users Group Meeting aims to explore and maximise the values of the Anatomage Table, while promoting the spreading of virtual application technologies through the generation of a networking platform. Attendees will have the chance to attend useful and collaborative hands-on with the Anatomage Team to better contextualise each tool of the new release Table 7.

Keynote speakers – Dr Böing, Dr Moyes, and Prof. Macchiarelli - will present their strategy of teaching using the Anatomage Table and will perform an interactive workshop to show the peculiar features that enabled the enrichment of their Curriculum.

At the Anatomage Table Users Group Meeting, guests are encouraged to meet with like-minded individuals and share teaching methodologies.

Specifically, the attendees will be able to:

- Receive multiple hands-on sessions
- Attend lectures led by experts in their field
- Share ideas with other Table users
- Give feedback about the Table

## Registration

Regular registration fees are 250€ per attendee. A discount is offered in case of multiple attendees. Please [click here](#) to register & refer to the email for payment.

## Travel Details

Anatomage recommends flying into the Brussels Airport - Zaventem which enables travelers to reach Leuven in 20 minutes by train.

## Accommodation

With regard to possible accommodations, we suggest to choose one of the following Hotels in the city centre of Leuven:

[Ibis Leuven Centrum](#)  
[Pentahotel](#)  
[Hotel The Fourth](#)

## Guest Speakers

### Dr Marion Böing

Dr Marion Böing studied biochemistry and received a doctorate in 2017. She is working since 2013 at Ruhr-University Bochum in Prof. Brand-Saberi's lab, first as a PhD student and nowadays as a research and teaching assistant. Her main research is about the murine placenta and embryological development and its transcriptional regulation. Since 2016 she is also teaching in the Anatomy courses where she gained a lot of experience in the dissection course and the usage of Anatomage during the integrated seminars. Furthermore, she is organizing and giving lectures in the International Master Program "Molecular and Developmental Stem Cell Biology".

### Dr Siobhan Moyes

Dr Siobhan Moyes is the Lead in Anatomy and Histology at the University of Plymouth's Peninsula Medical School (PMS). PMS runs a constructively-aligned, integrated curriculum, focusing on surface anatomy, medical imaging and virtual dissection, without cadavers. Siobhan has integrated the Anatomage system to create a dynamic, innovative learning environment, students actively engage with.

### Prof. Guido Macchiarelli

Prof. Guido Macchiarelli, MD and Specialist in Cardiology, is a full-time Professor and Chair of Human Anatomy, Director of the Department of Life, Health and Environmental Sciences and Dean of the Medical School of the University of L'Aquila, Italy. He is also President of the International Committee of Symposia of Morphological Sciences.
